JIRA
VS Code
Visual Studio Community
Bugzilla
Bootstrap

Experience

Software Developer — 2017 - 2018
PriceSpider
Tech: C#, .NET, TypeScript, JavaScript, SQL, Microsoft SQL Server, Docker, JIRA, Fiddler, Agile Methodology, GitHub, Jenkins.

- Created seller-specific web scraping scripts to e-commerce websites using C#, JavaScript, TypeScript, Node.js and Docker.
- Maintained the data scraping technologies by completing a backlog of 800+ debugging tickets using C# with agile development methodologies.
- Programmed 200+ seller-specific web scraping scripts to provide accurate data for clients to see what their products' ratings and reviews are from customers.
- Responsible for completion of code reviews, building latest software update in Jenkins, and documentation of the daily release notes with risk evaluations.

Full Stack Developer — 2015 - 2017
Byrne-Systems
Tech: PHP, Laravel, JavaScript, C#, .NET, Java, SQL

- Analyzed and modified legacy software to adapt software to new software specifications, upgraded interfaces, and improved performance.
- Collaborated with engineering to judiciously implement front-end interface elements to support back-end architecture.
- Evaluated code to ensure that it's valid; properly structured, meets industry standards, and is compatible with common operating systems.
- Developed and documented style guidelines for web-site content.

Junior Web Developer — 2014 - 2015
ProBoards
Tech: Perl, JavaScript, HTML, CSS, LESS, SQL

- Assisted in designing, building, and maintaining new revision of new forum platform.
- Developed and validated test routines and schedules to ensure that test cases mimic external interfaces and address all software requirements.
- Resolved and documented critical software bugs through Bugzilla.

Full Stack Developer — 2013 - 2014
Khafre
Tech: PHP, WordPress, HTML, CSS, Bootstrap, Dreamweaver, SQL

- Developed and directed software system testing and validation procedures, programming, and documentation.
- Participated in various conferences, workshops, and groups to spread community awareness of our product offerings.

Education

DeVry University, BS — 2010
- Lead a team of 5 to complete the final project, using PHP, HTML, CSS, Twitter Bootstrap.

Cal State Fullerton, AA — 2000
